— TO DO —

A large grid for planning. The grid consists of 15 rows and two columns. The first column is on the left and contains small squares at the start of each row, resembling a calendar's days of the week. The second column is on the right, separated by a vertical dotted line. The entire grid area is filled with horizontal dotted lines. At the bottom of the grid, there is a large, light gray silhouette of a dachshund dog wearing a red Santa hat, identical in style to the one above.
